

TWO LOSE LIVES IN LAKE CATHERINE AS BOAT CAPSIZES

Local Firemen Recover Bodies of Hazel Pieretz and Herman Loeffler

DROWNINGS HELD ACCIDENTAL

Verdicts of accidental death were returned Sunday by the coroner's jury investigating the deaths of Hazel Pieretz, 16, and Herman Loeffler, 15, Chicago young people who lost their lives in Lake Catherine Friday night, when a motorboat in which they were riding sank 300 feet from shore. Three other occupants of the boat were rescued. They were Arthur Grube, 23, owner and pilot of the boat, and Evelyn and Dorothy Lempe, 14 and 16 years old, respectively, cousins of Grube.

Although the coroner's jury did not censure the pilot, it was reported that Coroner Taylor stated he would lay the facts of his investigation before State's Attorney A. V. Smith for the purpose of a complete probe of the actions of Arthur Grube, who was driving the outboard motor boat in which the party rode. Inquiry today disclosed the fact that the matter has not been brought to the attention of the state's attorney.

Drag for Bodies

After hours of dragging, Antioch firemen, lake residents and deputies from the sheriff's office recovered the bodies, which were brought to the Strang undertaking rooms, Antioch.

According to cottage residents at the lake, the five had gone out on the lake in a rowboat to which an outboard motor was attached, and which was the property of young Grube, whose father owns a store at the lake.

As they started making a turn 150 feet out the boat filled with water and sank plunging the five into the water.

The two girls rescued were aided in reaching the shore through the fact that they were kept afloat. Grube swam to the aid of the Pieretz girl, but she advised him to help Loeffler who was floundering. As he left her the girl sank beneath the water, although she was an excellent swimmer and member of the Junior life saving corps.

At the risk of his own life, Grube struggled with Loeffler and was nearly pulled down to his death before freeing himself and swimming to a diving platform. Loeffler's body was seen no more until pulled up by the rescue party late Saturday.

CAR OVERTURNS ON HICKORY ROAD AS IT HITS CULVERT

Miss Alice Folbrink and Norman Peterson Are Injured

Miss Alice Folbrink, 19, Riverside, Illinois, and Norman Peterson, 16, Antioch, were severely injured on Friday, at 12:30 a. m., while driving on the Hickory road near Rosengans. The accident occurred when Peterson's new Essex coupe, which Miss Folbrink was driving, struck loose gravel and jumped into a culvert. The young people, who were unconscious as the result of being badly hurt and bruised about the face and legs, were taken by strangers to a Waukegan hospital, and the car, which was damaged beyond repair, was brought to Antioch. Miss Folbrink and Mr. Peterson are both recovering.

Lobdell Disbelieves Road Statement

According to R. M. Lobdell, who is Lake county superintendent of highways, it is not probable that the gas tax funds for the building of high-

Dinner and Bazaar Will Be Held July 25

The members of the Ladies' Aid society are the sponsors of a big dinner and bazaar, which will be held at the Methodist church parlors on Thursday, July 25. The time is one-thirty and dinner will be served at five o'clock. It will be sixty-five cents per plate. The menu has been planned as follows:

Baked Ham	Creamed Potatoes
Buttered Beans	
Salad	Rolls
Apple Pie A La Mode	Coffee

There will be grab bags, all kinds of fancy articles, aprons, and comforters for sale. Don't forget the date, Thursday, July 25.

LOCAL CHAIN STORE SHOWS GREATEST BUSINESS GAIN

Manager Chinn Is Cited for Achievement — Means Much To Town

Percy E. Chinn, 12 years manager of the Great Atlantic & Pacific Company's Antioch store, is receiving congratulations from his friends this week on two counts. First, Mr. Chinn received a letter from headquarters appraising him of the fact that the local store had shown a greater increase in business during the month of June than any store in the Chicago district, some 80 stores, including the cities of Elgin, Aurora, Joliet, Rockford, Freeport, and Dubuque, Iowa. For this achievement Mr. Chinn is to receive a diamond ring.

But wait—the same mail brought another letter to P. E. Chinn containing the news that the store here had topped the list of all A. & P. stores in the central states, 460 stores outside of Chicago, the local store showing a greater percentage of increase in business. Mr. Chinn smiled as he unfolded the substantial check enclosed in the letter.

"A. & P. stores are nationally advertised," Mr. Chinn said, "but you've got to have people to buy, and the people are here this year. The regional advertising done this year has been a factor in increasing business in all lines." Mr. Chinn continued, interested in what the achievement means for the community rather than taking deserved credit to himself for the exploit which is unparalleled in the annals of local business.

Golfers Are Guests of H. D. Binks Friday at Cedar Crest Club

Golfers and near golfers to the number of forty flocked or struggled over the fairways at Cedar Crest country club last Friday afternoon, later to become the guests of H. D. Binks at his palatial Cedar Crest home, purchased recently from the Cedar Crest Realty Trust by Mr. Binks for his residence.

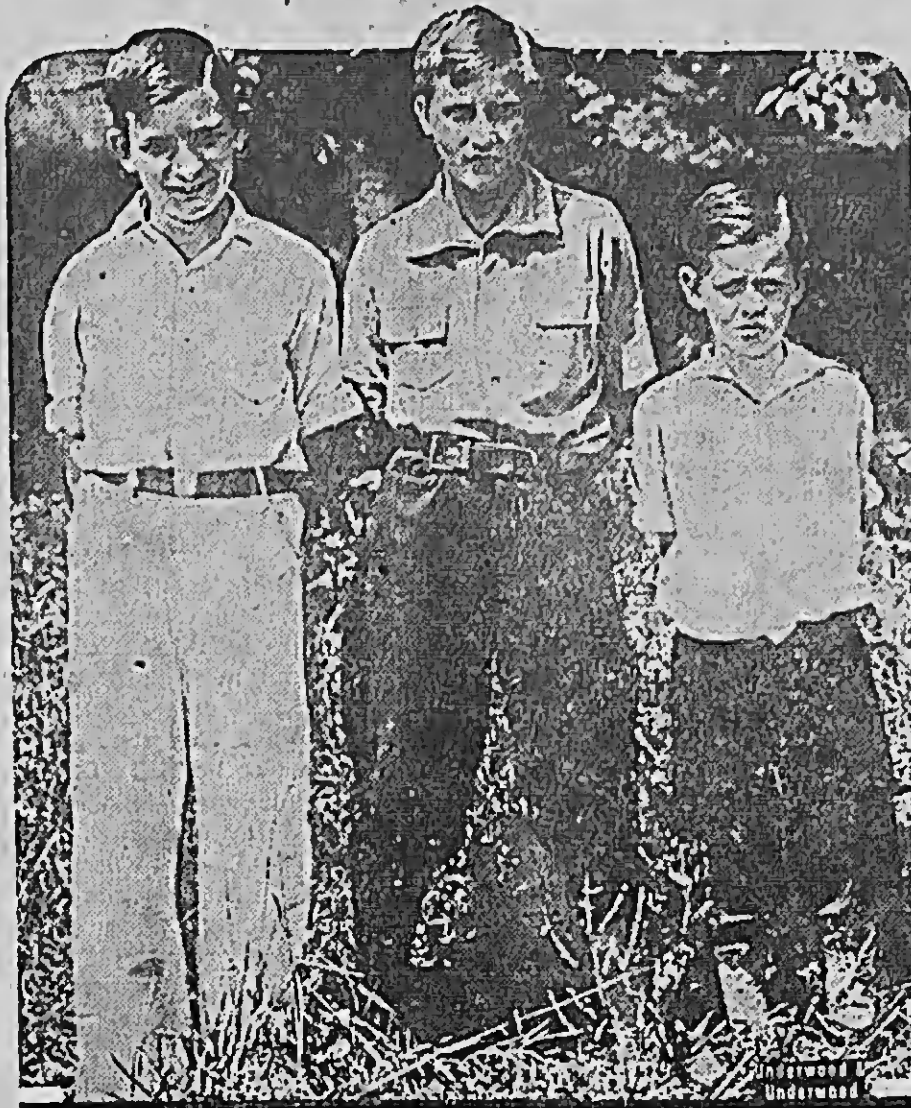

Judge Claire C. Edwards, veteran of many amateur tournaments and better than most professionals, shot his usual fifty game, with Secretary of State William J. Stratton, H. L. Scott, Paddy Driscoll, and C. K. Anderson near the Judge's mark in the scoring. Anton J. Corman, president of the Cook county board, and Lake county officers were among the guests. Those from Antioch attending were Robt. C. Abt, S. Boyer Nelson, Herb J. Vos, H. B. Gaston, W. R. Williams, Rev. Frawley and C. E. Shultis.

Local Boy Scouts Take Two-Day Trip

The boy scouts of troop no. 61 left Wednesday morning at five o'clock on a two-day camping trip to the Wisconsin Dells. Mr. Wetzel donated the truck in which Mr. Bohl and the boys made the trip.

The vacationists encountered a little trouble at Whitewater, Wisconsin, due to the fact that Mr. Wetzel failed to provide a dealers' license on the truck which he donated. This was soon adjusted, however, and the party went on their way.

They Know Edison's Rubber Secret

These three youthful berry pickers came upon Thomas A. Edison in a field near Brookside, N. J., where he was gathering wild flowers which he told them were to be used in cultivation for his rubber experiments. During the course of his conversation Mr. Edison told the youths the secret of his process, but they refused to disclose it to interviewers. The boys are, left to right: Lawrence Horner, twelve; Grant Thorburn, Jr., twelve; and Jack Horner, seven.

EARL SORENSON MEETS DEATH AT CROOKED LAKE

Doctor's Attempt To Save Youth's Life Fails

Earl Sorenson, 18, who lived at 2932 Avondale avenue, Chicago, was drowned on Monday at Crooked lake, which is near Lake Villa.

He was attempting to swim from the shore to a raft which was some distance out in the water. When he called for help, some expert swimmers who were near recovered his body and Dr. Beebe, Antioch, tried to save his life by means of a lung-inflator, but it was too late.

The fact that Sorenson ate heartily before entering the water is thought to be the probable reason for his sinking.

ANTIOCH NEWS WOULD LIKE TO HIRE THIS OUTFIT FOR 30 DAYS

"John Law" Extracts Coin From 59 Delinquents In Week's Time

Village Marshall, Simonse, Harold Gelstrup, police magistrate, with trustees and other officials, rooting on the side-lines, succeeded last week in collecting from 59 Antiochians who were delinquent with their vehicle tax. As a collection agency this combination would be hard to beat, for no outfit ever dug up the coin quicker or better than "John Law" when he does swing into action.

Total collections to date from 335 automobile owners nets the village \$1,690.00. Summonses have been served to about 15 others, and 33 who should purchase the license tags are still at large, according to last year's collections when 376 bought village license plates.

The collection business has been brisk since Mayor Bartlett and the village council ordered the license 15 days ago.

The News office had the pleasure last week of receiving a renewal subscription from a woman who has been a subscriber of the Antioch News thirty-one of the forty-three years that it has been in existence. She is Mrs. Charles Vonn of Chicago.

Church Card Party Is A Big Success

The card party which was held at the Channel lake pavilion on Wednesday afternoon by the young ladies' Sodality of St. Peter's church was a financial as well as a social success. The young ladies are very grateful to all who helped, and especially to Miss O'Heron for the use of the pavilion, to Mr. Reeves, who donated the ice cream, and to Mr. Strang for the use of his chairs. The door prize was won by Mrs. R. Dante of Bluff Lake.

STRATTON'S OFFICE SHOWS TWO MILLION INCREASE IN 6 MONTHS

Secretary of State Has Collected 17 Millions in Fees Since January.

Springfield, July 18—Fees collected by the Secretary of State in the first six months of 1929 show an increase of \$1,950,566.33 over the same period last year, according to figures announced today by the accounting department of secretary of state William J. Stratton's office.

Since the present secretary of state assumed office early last January, the various departments he administers collected a total of \$17,304,521.52 as compared with \$15,353,955.19 for the same period last year.

The automobile department collected \$15,841,439.49 which is an increase of \$1,433,206.82 over the first six months of 1928.

This department already has issued licenses for 93,741 more passenger cars than were registered in the same period of 1928. Trucks show an increase of 11,758 and chauffeurs 6,647. Truck licenses total 130,221 and chauffeurs \$6,304. The passenger car registration to date is 1,262,673.

At the end of 1928 it was estimated that 65,000 more automobiles had been registered in Illinois than in 1927. Considering that 93,471 more cars already have been registered this year than were licensed in the first half of 1928, there is every indication the total increase for 1929 over 1928 will double the total increase of 1928 over 1927.

The collections of the corporation department also showed large gains for the first half of this year as compared with the same period in 1928.

To date this department has collected \$1,382,797.21 whereas \$858,402.86 was collected in the first six months of 1928. This is an increase of \$524,394.35. The collections from foreign corporations more than double while those from domestic concerns almost reached that ratio.

Substantial increases also were registered by other departments of the secretary of state's office.

Impressive Ceremony Will Mark Laying of St. Peter's Corner Stone Here Sunday

John Knott Receives Injuries In Fall

Mr. John Knott was painfully injured last Monday afternoon when he fell from the scaffold to the basement of the new Catholic church. He was taken to the hospital where it was learned that he had a fractured cheek bone and many serious bruises. He is still at the hospital, but is recovering.

PLUM SEEKERS STORM CAPITAL AS GOVERNOR STARTS PRUNING JOB

Emmerson's Axe to Sever Most of Small Appointees From Payroll

"House-cleaning" in Illinois, what politicians have been awaiting since the governor took the oath of office last January, is about to get under way at Springfield this week, although no important appointments had been announced late today.

Hundreds of job-seekers throughout the state are awaiting with almost breathless expectancy announcements from the governor's office regarding patronage and names of those who are to succeed Len Small's hang-overs who are yet on the state pay roll. Gov. Emmerson's axe is expected to sever practically all of the former governor's appointees before the first of August.

Seven \$7,000 Jobs

J. Paul Kuhn of Batavia probably will be the only one of the \$7,000 a year commissioners who will be retained, though considerable influence is being exerted in behalf of James R. Clarke of Bloomington.

There are seven of these \$7,000 a year jobs, eight assistants at \$5,000 a year, and a secretary at \$6,000.

Those slated for retirement, excluding the assistants, are Chairman P. H. Moynihan and Alexander J. Johnson of Chicago; Hal W. Trevillion of Herrin, William J. Smith of Waukegan, and Secretary Julius Johnson of Moline.

Gov. Emmerson plans to revamp the tax commission eventually. When he sees his way clear to consider this problem, friends expect him to appoint all new members, from outstanding business men of the state.

Slated To Retire

Those slated to retire from the tax commission are: Chairman William H. Malone, Park Ridge; Charles R. Francis, Chicago; A. T. Spivey, East St. Louis, and T. D. Telford, Salem. A tax commissionership pays \$6,000 annually.

There are a host of other jobs including some assistant directorships and departmental positions, that must be filled. Some are vacant, but many of them are held by appointees of former Governor Small.

YOUNG MAN DROWNS IN DRUCE LAKE

Bror Gustafson, 25, whose home was at 314 McAllister avenue, Chicago, drowned about one hundred feet from the shore in Druce lake on Sunday.

Rumor has it that the victim was taken with cramps as he attempted to pull the raft toward the shore. He sank before those who were near could reach him.

When his body was recovered, medical science was administered, but it was of no avail. The verdict was that of accidental drowning, as declared by a coroner's jury at the Wetzel and Peterson undertaking parlors to which place the body was taken.

IMPORTANT SERVICE TO BE CONDUCTED BY BISHOP SHEEL

Bartlett, Paschen and Cermak Named As Principal Speakers

Laying the corner stone next Sunday marks an important step in the erection of St. Peter's church edifice in Antioch. Keen interest is centered about the event by the local congregation and a great crowd is expected to witness the ceremony announced to be held at 12:30 o'clock, daylight saving time.

The stone will be laid by Bishop Sheel, Chicago, assisted by other notables of the Catholic faith.

Bartlett to Speak

Among the speakers for the event will be George B. Bartlett, president of the village board of trustees, Chris Paschen, building commissioner of the City of Chicago, Anton J. Cermak, president of the Cook county board, and Leo Strelka, Chicago architect who drew plans for the church.

Ground was broken for the new church edifice and rectory on west Lake street June 5, and the work has been pushed rapidly by the W. J. Lynch construction company, who were awarded the contract. This is the concern that did practically all the development work in Mundelein, including the erection of St. Mary's of the Lake. They now have under contract a two million dollar hospital in St. Louis, Mo.

Occupies Point of Vantage

Occupying a point of vantage near the intersection of Lake street and state highway No. 59, the new church will command a view for miles around. Built of Linden stone and trimmed with Indiana limestone, there will be beauty of design and durability combined in the general architectural scheme. The rectory will conform with the church in its style peculiarities.

The seating capacity on the main floor of the church will be 550 and that in the auditorium will be 500. The total cost of the church and rectory will exceed \$150,000, a large proportion of which has been subscribed, due to the activity of the local pastor, Rev. Fr. Frawley, who has been ably assisted by the trustees, H. J. Vos, J. R. Williamson and B. F. Naber, the latter donating the land for the site of the building.

METHODIST PASTOR IS GIVEN RECEPTION ON TUESDAY NIGHT

A large number of members and friends attended the reception which was given Rev. and Mrs. Bohl at the Methodist church parlors Tuesday night.

Mr. Pollock gave the address of welcome to which Mr. and Mrs. Bohl both very fittingly responded. Solos were rendered by Mrs. H. B. Gaston and Mr. Pollock; Misses A. J. Felter and A. G. Watson gave readings; and Mrs. Ziegler played beautifully on the pipe organ. She is very talented and has served the church as organist for a goodly number of years.

The decorations consisted of many baskets of beautiful flowers which created an inviting atmosphere. After the ice cream and cake had been served, Rev. and Mrs. Bohl were presented with a lovely comforter which was made by the members of the Ladies' Aid.

During the short time that Rev. and Mrs. Bohl have been in this city, they have proved themselves to be very unusual characters and have won the esteem of the entire community.

A grass fire occurred in the rear of Joe Horton's home Thursday noon. No damage was done.

Hints

Do Not Let Stains Mar
Your Vacation In
Land O' Lakes

Below are some practical ways of removing common stains:

Ink—Soak fresh stains in sour warm, milk, or buttermilk; apply an absorbent such as a blotter or chalk. If the stain is old, treat as for dye stains. On carpet, if ink stain has not had time to dry, scrape with spoon, add water, and continue spooning and adding water, until traces of ink disappear.

Dye—Wet twenty percent acetic acid and absorb by means of a blotter and three percent solution of chloride of lime.

Fruit—Stretch over bowl and cover stain with baking soda. Pour boiling water through cloth until soda dissolves. If stain is old, treatment depends on goods. For wool, silk, colored, and delicate materials, treat with a fifty percent solution of ammonia in alcohol. For other fabrics, moisten stain with dilute oxalic acid neutralized with ammonia.

Meat Juice—Rub with naphtha soap, soak in warm water, and wash.

Seorch—Cover with paste of boiled starch.

Bluing—Boil stained material twenty minutes. Add vinegar, if bleach is necessary.

Coffee, Chocolate, and Cocoa—Use boiling water, or bleaching, if necessary, with potassium permanganate. If cream is in coffee, add a grease solvent.

Egg—Wash in cold water, then with warm water and soap.

Grass—Wash with cold water and soap; bleach, if necessary. For colored fabrics, apply molasses and cooking soda and let stand overnight. If stain is old, wet with water and equal parts of salt and cream of tartar.

Grease and Oils—Cover spot with chalk and use blotter and a warm iron to take up grease. Rub spot with butter or lard and wash with soap and water.

Iodine—Treat with ammonia.

Paint or Varnish—Treat with turpentine. If the material is silk, use benzine. Boll white cottons and linens to solution of three teaspoonsful of washing soda to each gallon of water.

Rust—Wet and cover with equal parts of tartar; hold in steam of kettle. If color is affected, treat with ammonia.

Tar—Use soap and any oil which will dissolve tar.

Iron—Cover stain with salt, moisten with lemon juice, and hang in the sunlight.

Kerosene—Use soap and warm water.

Medicine—Apply holling water.

Mildew—If fresh, wash with soap and cold water, or soak in sour milk and place in sun without rinsing. If old, bleach with Javell water.

Mud—Allow to thoroughly dry and brush off.

CHRISTIAN SCIENCE CHURCHES

"Sacrament" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 14.

The Golden Text was, "The hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth; for the Father seeketh such to worship him" (John 4:23).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "For we have not a high priest which cannot be touched with the feeling of our infirmities; but was in all points tempted like as we are, yet without sin" (Hebrews 4:15).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Since Jesus must have been tempted in all points, he, the immaculate, met and conquered sin in every form" (p. 564).

Death Penalties

The only crimes for which capital punishment may now be inflicted, according to the law of England, are high treason and murder. By United States statutes nine crimes may be so punished, including treason, murder, arson, rape, piracy and robbery of the mail.

First to Rule All England

The first king of all England was Egbert, who reigned from 827-839. Anne, 1702-1714, was the first to reign over Great Britain; that is, England, Wales and Scotland.

Father Sage Says

A woman is seldom in a position to command until after she has given her promise to obey.

For Late Summer

An attractive navy blue dress with white dots. It features a high waist and a flare at the hem.

Grandmother's Scrap
Book—July, 1890

White dotted muslin is in good taste for a party dress.

A very tall girl of fifteen should wear her dresses below her ankles.

It is not considered proper for young girls to go to a matinee, unless an older woman accompanies them.

The most convenient way to wear a watch, during business hours, is in a chateleine fashion.

To keep your lips in good condition, never go out into the air, without having a little vaseline rubbed on them.

For general wear in July, buy a black waterproof Japanese silk, which will shed both water and dust.

Cold colors such as pale blue, light green, gray, tan, white, and lavender should be avoided; instead, wear reddish purple, brown, golden tan, deep red, old rose, and bright navy.

All skirts should be lined with hair-cloth.

At twenty years of age it is absurd to dress like a miss.

A very pretty stocking is of black silk, with tiny bows embroidered upon the instep with gold thread; of course, it could never visit the laundry, but those who wear these stockings should always have a pair of plain ones under them, in order to keep them from wearing and being soiled.

Ordinary skirts this season are usually about four yards in width. The front is twenty inches wide at the bottom and fourteen at the top, with two or four darts at the top, according to the form; each side is twenty inches at the lower edge and ten at the top, with one or two darts, as the hips may require. The back is of five pieces, each twenty inches at the bottom and three at the top; being gored on each side and gathered at the top in six large attaches that form the rounded plaits, which broaden toward the bottom of the skirt.

Calumny Travels Fast

Nothing is so swift as calumny; nothing is more easily uttered; nothing more readily received; nothing more widely dispersed.—Cicero.

USE KITCHEN UTENSIL TO
STERILIZE BABY'S BOTTLES

The baby has all he can do to keep growing and developing, without having to fight disease all the time. For this reason everything with which he comes in contact must be thoroughly sterilized, especially as regards his food, says the National School of Pressure Cooking.

If this seems like a great deal of unnecessary bother, remember that caring for a sickly, puny, fretful baby is far more trouble than taking precautions to keep him healthy.

As a matter of fact, however, it is no great nuisance to sterilize baby's bottles and food utensils if you will make use of the same pressure cooker, which you have perhaps learned to use in canning fruits and in cooking entire meals for the family. As a sterilizer alone, the pressure cooker would really justify its place on your kitchen stove.

Simply put one cup of water in the bottom, then arrange the utensils, which of course are first carefully washed and rinsed.

The bottles go in first, lying flat on the bottom of the rack, then sit in be-

These Cakes Are Easy
To Make, Delicious,
And Economical

Delicate Cake

Three cups of flour, two of sugar, three-fourths cup of sweet milk, whites of six eggs, half cup butter, teaspoon cream of tartar, half teaspoon of soda. Flavor with lemon.

Orange Cake

One cup of sugar, half a cup of butter, half a cup sweet milk, two cups flour, three eggs, one and a half teaspoonsful of baking powder; bake in jelly-tins.

Composition Cake

Five cups of flour, two cups of butter, three of sugar, one of milk, five eggs, one teaspoon of soda, two of cream of tartar, fruit as you please, cinnamon, cloves, and nutmeg to taste.

Ice Cream Cake

Make good sponge cake, bake half an inch thick in jelly-pans, and let them get perfectly cold; take a pint of thick sweet cream, beat until it looks like ice cream, make very sweet, and flavor with vanilla; blanch and chop a pound of almonds, stir into cream, and put very thick between each layer.

California Cake

Two cups of sugar, one cup of butter, one cup milk, two eggs, three teaspoons baking powder, put in three cups sifted flour, flavor, and add fruit. This recipe makes two cakes.

White Mountain Cake

One cup sugar, one-half cup of butter, one-half cup sweet milk, one-half cup corn starch, one cup flour, whites of six eggs, a little vanilla, two teaspoonsful baking powder. Bake in layers.

Sponge Cake

One cup sugar, 1 cup flour, one and one-half teaspoons baking powder. Mix all together; beat 3 eggs until light; add them to this mixture; stir well; and add 3 tablespoons of cold water and the flavoring.

Lemon Cake

One-half cup of sugar, one teaspoon butter, one tablespoonful of milk, three eggs, one cup flour, one teaspoon baking powder; bake in jelly-tins, and put two apples and one lemon (grated) between the layers.

Cream Cake

Two eggs, one cup of sugar, one cup of cream, two cups of flour, one teaspoonful of cream of tartar, and one teaspoonful of soda.

Spice Cake

One and one-half cups of sugar, half cup butter, half cup of sour milk, two cups of raisins chopped, three eggs, half a nutmeg, one teaspoon cinnamon, one of cloves, one saleratus; mix rather stiff; bake in loaf tins in moderate oven.

Devil's Food Cake

1 cup sugar
Piece of butter size of an egg
Yoke of 1 egg
1 cup of milk
1 bar of chocolate
Dissolve the soda in one-half of the milk and the chocolate in the rest of it. Add two scant cups of flour and flavor with vanilla.

Sally Ann's Adventures
At Her Grandfather's

Sally Ann, who lives far away by the big ocean, is spending the summer with her grandpa and grandma, who live on a farm near Antioch.

She had never before seen any chickens, pigs, turkeys, horses, or cows, until she came here on the fourth of July. She wonders and wonders what all these strange creatures can be. Her grandparents can't begin to answer all the questions she asks.

As she is a very nervous little girl, it seems as if, wherever she goes, she finds something to squeal about. She squeals when the turkeys pick her toes, when the doggie takes hold of her little hand, when the bumble-bee goes buzzing by, when the load jumps around in the grass, when mousie runs past her, when grandpa plays bear, and when the old settlin' hen flies into her face. It keeps her poor grandma jumping every minute to see what is the matter with Sally Ann.

However, she does love all the chickens, except those that have the little babies. One day, after dinner, she went out doors to play with her doll; her grandma didn't pay much attention to her, until it was time for her nap. When she went out on the lawn, there was no Sally there. After searching for some time, grandma found her in the chicken house waiting for a settlin' hen to lay an egg.

Sally Ann never wants to stay home. Everyday, when she sees Olive, the little neighbor girl, come home from the milk factory with her father, she says, "Grandma, Olive is home now; can I go over and see her?" Grandma just can't say "no" to her. The sweet little thing, when she teases so. Day before yesterday, her grandmother said to her, "now, dear, you can have a chance to go over to Olive's house; you always want to go so bad; you can stay today, until I get back from town."

In the middle of the afternoon, when Olive's mamma was busy sewing, the two little rascals ran away and went over to Sally Ann's grandma's. After swiping some ginger snaps from the cupboard, they decided they had better go back before grandma got home. As they were going through the woodshed, Sally Ann spied her little pet turkey in an old box. Her grandmother had put it there before she went to town, because otherwise it would get out onto the road.

In the center of the floor of the old woodshed, there was a hole, which was all covered with boards, except just a little bit of it. There was a cistern under there. As Sally Ann and Olive were leaving the door, Sally Ann happened to turn around just in time to see her little turkey jump out of the box and fall into that hole which was not covered over by boards. "Oh, Olive," Sally Ann cried, "my poor little toky is drowning!" Olive, who was a bit older than Sally Ann, quickly ran out to the lawn and got the rake. With that, the two little girls tried and tried to save the unfortunate "toky." Just a few minutes before her grandma and grandpa drove into the yard, little Sally slipped into the cistern in her attempt to pull up the turkey. Olive, who was breathless, started to run to tell her mother quick, but before she got to the gate, Sally's grandparents came. She told them, right away, and grandpa ran into the house, and jumped into the cistern, while he hung onto a pipe which ran into it, grabbed pale little Sally, who was also clinging to the pipe farther down, and brought her out alive.

Let's hope that nothing else happens to Sally before the summer is over.

FOX LAKE GROCERY AND MARKET STORE FIRE DAMAGE, \$1,500

Former Residents Die; The Public Service Company Has Picnic

A fire broke out in the Northwest grocery and market store. A great deal of damage was done before the fire was discovered. The quick action of the fire department saved the building. The damage is estimated to be \$1,500.

Mrs. Veronice Foster, formerly Helen Champlin, of Fox Lake, and baby passed away July 11. The burial was from Nelson's undertaking chapel in Chicago on Saturday, July 13.

Mr. Hatch, who has been a resident of Spring Grove for a good many years passed away. He was buried last Tuesday.

The Public Service company is having a picnic for its employees July 27, at Round Lake. There will be a game of baseball between the Waukegan boys and the Ingleside boys.

Sophia Blair entertained a few of her friends in honor of her twelfth birthday.

Mr. and Mrs. Arthur Lehmann have returned from a week's visit in Chicago.

Mrs. Josephine Tyler of Ingleside passed away Tuesday, after a long illness.

The public luncheon and dance party of which Mrs. Anthony Bassi was hostess was well attended.

Mrs. George Koth and her sister, Mrs. Ferguson, of California, are now touring Iowa.

Mr. and Mrs. W. M. Ernst and Mr. and Mrs. Ernest Borchard and son, Bobby, are touring in northern Wisconsin. They intend to stop at the Indian reservations.

Mrs. Anthony Bassi and Mrs. Thos. Crilly were guests of Mrs. Joyce at her home, Joycecreek, in Antioch.

Mr. and Mrs. Edwin Hall of Grayslake are the proud parents of a baby girl born Monday evening. Mrs. Hall was formerly Maude Lumber of Ingleside.

Robert Hoff, Jr., of Pontiac, Michigan is visiting his parents at Pistakee Bay.

Mr. Blacksmith of Sullivan's subdivision has just returned home from the Lake County hospital.

Quite a number of young folks had a party at Channel Lake Wednesday evening. The time was spent in dancing and swimming.

Madame Rottor and friends were the guests of Mr. and Mrs. J. Grant Britton over the week-end.

Some of the ladies at Fox Lake gave a lovely baby shower in honor of Mrs. Arthur Hill, who was formerly Miss Margaret Bubbles.

FRIED FOODS NOT GOOD FOR HEALTH

Takes No Longer to Cook Meat Under Pressure Than to Fry It.

Too much fried food is probably the outstanding defect in American diet, according to the testimony of physicians and nutrition experts. We try our meats, our fish, our eggs and even some of our vegetables. The temptation to reach for the handy skillet, put in some fat, and start our dinner frying is a great one, because it enables one to prepare a meal in a shorter length of time.

This is not the best plan for our health's sake, however, nor for the family pocketbook. So much rich food is not good for one, while foods cooked in fat tend to be less digestible because the cooking of fat prevents the digestive juices from penetrating the food. It is an expensive way of feeding the family, too, because only the best cuts of meat can be utilized for frying.

The woman who owns a pressure cooker very soon learns that she can serve her family delicious, nutritious meals cooked simultaneously in the pressure cooker, in the same length of time that it would take to fry the meat. In this way, one burner is used and the cheaper cuts can be made as tender and tasty as the more expensive ones.

The vegetables, too, being cooked only a few minutes, instead of one-half to three-quarters of an hour, retain all their mineral salts and none of the valuable vitamins is killed.

SIDE-TRACKED

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

The information office had told us when we were leaving Lausanne that the train we were taking was a through train for Paris and that we should not have to change until we reached our destination. We got along quite satisfactorily until we reached Dijon, and then something appeared to happen.

We were run off onto a siding and there we stood. No one offered any information, and we were finally awakened to the fact that we were the only passengers left in the carriages. We got off to reconnoiter, and from the guard at the station, after having pretty completely exhausted our stock of French phrases, we discovered that we were sidetracked for the day and that there was no other train leaving Dijon for Paris until the next morning. We were in a predicament; we had little ready money, and there seemed no easy way for us to get more. We should miss our connection in Paris, and our friends at the other end of the line would be annoyed and disappointed, but there was little we could do. We got a wrong start; we had been sidetracked, and the only thing we could do was to make the best of it. Next time we should get more accurate information.

It is not an uncommon thing for men starting out on the journey of life to get sidetracked, and once on the siding it is sometimes difficult or impossible to get off again.

Glasgow had great prospects as a preacher. He had a commanding physique, an appealing personality, and a most thorough intellectual training. He married a woman of fine character and with unusual intelligence, and it looked at the outset as if they were on the through train for power and influence in the community in which they established themselves. But Glasgow had scarcely started until he became sidetracked. He lost sight of the great principles of religion which make for better influence and better living, and centered his attention upon the petty details of dogma, upon the minor differences which separate sects, and gave all his energies to the emphasis of these things and he lost entirely the power and the influence which he might have exercised. Instead of being on the main line he spent his life pulling up and down a side track.

Bower is sidetracked. He had a chance twenty years ago with a firm in which the greatest possibilities were open to him. But the salary was small and Bower wanted to make money at the outset. There was a girl he wanted to marry, and he could not wait. So he went with a smaller and less significant firm where the salary at the beginning was larger and the prospect of advancement less bright. That was a good many years ago, and Bower is making little more today than he was when he started and he is too old to change. He is permanently sidetracked.

LAKE VILLA WOMAN IS HOSTESS AT A LUNCHEON THURSDAY

Bazaar Will Be Held Aug. 2; Several Families Attend "101 Ranch"

Mrs. G. Swanson was hostess at a luncheon which was given at the Irving Barnstable home last Thursday.

The date of the bazaar has been changed to August 2, instead of July 27, as previously announced.

Several of our residents and their families attended the "101 Ranch" at Waukegan Monday.

Mrs. George Gooding, Libertyville, spent Friday with her parents, Mr. and Mrs. Joseph Foster.

Mr. and Mrs. Frank Hamlin were in Kenosha callers Friday.

The Alsbaugh family spent Wednesday at Lake Geneva and had as their guests Mr. Alsbaugh's mother and sister of Oklahoma.

Mrs. Elmer Gray is spending some time here. At present, she is with her sister, Mrs. Georgia Avery, on the north shore of Cedar Lake.

Mrs. Frank Nader visited relatives in Kenosha Saturday and Sunday.

Mrs. Henry Petersen is a patient at the St. Theresa hospital, Waukegan.

James Atwell's condition is slightly improved. He has been ill for some time.

TREVOR WOMAN WILL ENTERTAIN AT TWIN LAKES

The Willing Workers met with Mrs. Harry Labeno Thursday. Mrs. Henry Labeno will entertain the ladies in two weeks at Twin Lakes.

Mrs. Wallace Drom and daughter, Grace, Antioch, called on the Patrick sisters Monday.

The remains of Clarence Bolton, Bristol, were interred at Liberty cemetery in the family lot Thursday afternoon.

Mrs. Andrew Harrison and Mrs. Clara Willett, Antioch, were Trevor callers Tuesday.

Mr. and Mrs. Henry Ernie visited in Kenosha Thursday.

Mrs. John Geyer and Miss Evelyn Myers visited relatives in Forest Park Wednesday.

The Misses Daisy and Myrtle Mickie and Mrs. Joseph Smith called at the George Schmidt and Samuel Matthews homes, Schillerlake, Wednesday.

Mrs. George Patrick called on Mr. and Mrs. Dwight Burgess, Bristol, on Thursday.

Mrs. Swincol and nephew, Frank Alexander, Chicago, are boarding at the Harry Labeno home.

Miss Ruth Pepper is spending part of her vacation with relatives in Chicago.

Mrs. Chas. Oetting and son, Lewis, and the Misses Jeannette Mathews and Joannette Murphy attended the circus in Kenosha Wednesday.

Foster Longman, Kelsa, Washington, and friends, Norman and Cecil Harper, St. Louis, Mo., visited the former's uncle, Daniel Longman and family Thursday.

Ed Filson and son, Horace, Chicago, were callers here Thursday.

Albert Kennedy and guest, Mr. Hoyt, Chicago, visited the former's daughter, Mrs. Clayton Lester, Spring Prairie, Friday.

Mr. and Mrs. Albert Nutt and children, Chicago, spent the week-end with the former's father, John Nutt, Sr., and brothers, Ed, John, Jr., and Walter.

The Misses Phyllis and Winifred Todd, Berwyn, Illinois, spent the week-end with their mother at the Ambrose Runyard home.

Mrs. Daniel Longman spent Wednesday with Mrs. J. C. James, Antioch.

The Misses Elvira Oetting and Idella Wolf "hitch hiked" from Madison, Saturday, and spent the week-end with the former's parents, Mr. and Mrs. Charles Oetting.

Messrs. George Patrick, Daniel Longman, and Milton Patrick spent Friday with Hiram Patrick, Burlington.

Mr. and Mrs. John Brown and children, Chicago, visited Sunday at the Willis Sheen home.

Z. Wiles, Camp Lake, was a caller here Friday.

Mr. and Mrs. Charles Miller, Chicago, visited their mother, Mrs. Ann Sheen, and sister, Miss Mary Sheen.

Mrs. William Smith and sister, Miss Pauline Copper, Chicago, are visiting their parents, Mr. and Mrs. C. A. Copper.

Mr. and Mrs. Lewis Kleiman, Kenosha, visited Saturday at the William Schilling home.

Mr. Alexander, Chicago, spent Saturday night and Sunday with his son, Frankie, at the Harry Labeno home.

Mr. and Mrs. Roy Kufalk and son, Antioch, called at the Charles Runyard home Saturday evening.

Elsworth Hoyt, and his sister and husband, Mr. and Mrs. Ed Koubek, Chicago, spent the week-end at the Elbert Kennedy home. Their father, Elmer Hoyt, returned home with them after spending the week with Mr. Kennedy.

Mr. Nelson is spending a two week's vacation at the home of his parents at Dorchester, Wisconsin. He will also visit his wife's parents at New Lisbon, Wisconsin. His wife and children, who have been visiting her parents, will return with him.

Mr. and Mrs. Charles Johnson,

DIPPING INTO SCIENCE

Deafness in Infants

Because the inner channels of the ears are full of mucus, newly-born infants are usually deaf for a few days after birth. To three or four days they become very sensitive to sound and loud noises startle or frighten them. Care should be exercised that only soft sounds reach the young one.

(© 1929, Western Newspaper Union.)

Melrose Park, were Sunday visitors at the William Schilling home.

Miss Daisy Mickie and Misses Harold Mickie, Charles Runyard, and Arthur Runyard were Kenosha shoppers Monday.

Louis Oswald and friends, Forest Park, were callers here Saturday.

MILLBURN SUNDAY SCHOOL PICNIC TO BE HELD AT MINTO'S

Young People To Attend School in Colorado—Roast To Be Held

The Sunday school picnic will be held in Minto's woods on Friday of this week.

Miss Clara Nelson, with Miss Margaret Gilbert, Waukegan, and Ethel Haines, Gurnee, leave Friday for Boulder, Colorado, where they will attend school for six weeks.

The Christian Endeavor society will give a wicker roast on George White's lawn Thursday evening.

Harold Slocum is spending two weeks with his cousin, Meade Walker, near Bristol.

Mark Edwards, River Forest, is spending the summer with his grandparents, Mr. and Mrs. D. B. Webb.

Violet and Betty Edwards, Waukegan, are visiting their grandparents, Mr. and Mrs. George Edwards.

Mrs. Ruby Hughes Tohill and children were dinner guests at J. S. Denman's Sunday.

Mrs. L. J. Slocum and son, Howard, spent Monday with her daughter, Mrs. Roy Olson, Waukegan.

David Dodge, Oak Park, is enjoying a few weeks at the J. S. Denman home.

Mr. and Mrs. George White and sons motored to Chicago Tuesday.

Messrs. and Mmes. Clarence Bonner, Will Bonner, Gordon Bonner, and Robert Bonner drove to West Allis, Wisconsin, Saturday to attend the funeral of their cousin, Ted Knoes, who was drowned in Lake Winnebago Wednesday.

BRISTOL YOUTH DIES AS RESULT OF MASTOID OPERATION

C. J. Bolton, Former Resident, Dies at His Home Tuesday Morning

One of Bristol's best known young boys, William Fritz Krahn, 12, a son of Mr. and Mrs. Henry Krahn, died Friday noon at St. Mary's hospital in Racine after a week's illness. The boy underwent an operation for mastoid on Thursday, but he was unable to rally and death came Friday noon.

The news of his death came as a personal sorrow to his legion of friends and relatives in Bristol, where he was beloved by all those who knew him. Young Krahn was born in Bristol, June 16, 1917, a son of Mr. and Mrs. Henry Krahn. He attended the Bristol school and had completed the sixth grade with fine scholastic ratings.

Besides his parents, he is survived by five brothers and five sisters. The brothers are: Hans, Carl, Fred, Emil, and Henry, all at home, and Mrs. Robert Johnson, Bristol; Mrs. Carl Pansch, Brighton; Elizabeth, Emma, and Elsie, at home.

The body was removed to his home Sunday morning and funeral services were held Monday afternoon at 2:00 o'clock at the Bristol-Paris Congregational church. Burial was in the church cemetery.

Clarence Joseph Bolton, aged 47, died at his home on the Geneva road early Tuesday morning, July 9. While he had not been in robust health for the past two years, his illness did not become serious until about two weeks ago.

He was born in Salem Township June 1, 1882, son of the late Mr. and Mrs. Daniel Bolton, early settlers of Southern Wisconsin. When still a young boy he moved with his parents to the farm home in Bristol township, which has been his family home for the past forty-two years. He was well known and popular among a large circle of friends, and was a member of Modern Woodmen, Bristol Camp.

On March 14, 1905, Clarence Bolton was united in marriage with Miss Lena Maleski of Bristol, who with two sons, Raymond and Norval, survive. His parents, preceded him in death some years ago.

The body was at the Hansen Funeral Home until Thursday morning when it was taken to the late home in Bristol in time for services at 2:00 o'clock in the afternoon. Burial was in the family plot in the cemetery at Liberty Corners.

Several friends of Mrs. Louis Jarnigo (nee Emma Lewis) gave a miscellaneous shower at the G. P. Willett home, Saturday evening. The guests were: Messrs. and Mmes. Leslie Gunter, Marshall Bishop, Clifford Jacobson, Roland Benedict, Charles Butrick, Clyde Jackson, Fred Maloski, John Runge, Jake Maleski, Leslie Firechow, the Misses Ruth Jones and Mayme Mitchell, Mrs. John Maleski, and Byron Kiese. Mrs. Jarnigo received many lovely gifts. The evening was spent playing out-of-door games. Delicious refreshments were served.

Mrs. William Lewis gave a miscellaneous shower Saturday in honor of her daughter, Mrs. Archibald Jones, who was recently married.

Mrs. Violet Frankson, Milwaukee, and Miss Emma Frankson, Spring Valley, Minnesota, are spending the week at the Gethen home.

Mrs. D. L. Burgess had the misfortune to fall from a step ladder and injuring herself considerably.

Mr. and Mrs. Frank Gethen spent the first of the week at the Frankson home in Milwaukee.

TELEPHONES where you need them—This is a modern way to add to the living comfort of your home.

Many families nowadays have two or more telephone lines—with handy extensions. In such homes incoming and outgoing calls are seldom delayed, for the additional lines give assurance that at least one will be available for use always.

Business houses invariably add telephone lines when usage demands. Why not the same thing in the home?

Nearly every room in your house would be more livable with a telephone in it.

The cost of extension telephones is small. Call our Business Office.

World-Girdling Students En Route Home

Higher education
on the high seas.
A class on the
ship's deck. Who
wouldn't love to
go to school in a
world cruise.Athens — Art students
visit ruins of the Acrop-
olis to see "the glory
that was Greece."The ship at Adalia, Turkey-in-Alea,
seen through a breach in the ancient
fortifications built by the Saracens.Siamese temple. The two figures guarding the entrance are sup-
posed to repel evil spirits and protect the worshippers.

PARIS. — Their memories crowded with thrilling experiences in strange lands throughout the world, the one hundred young American men and women students who sailed from New York eight months ago on the annual educational expedition of Floating University are now in Paris on the last lap of their itinerary.

Recognized officially as a representative body of American students everywhere they went, the Floating University students received many unusual courtesies. In China, they penetrated into the interior guarded by a gunboat loaned

by the Chinese Nationalist Government. Disembarking with a military escort for protection from the bandits who infest the region, they spent a night in an ancient Chinese monastery located on a high mountain top. The journey up the mountain was made in sedan chairs carried by coolies.

In Siam, the traveling students were received by King Rama VII, and during the whole of their stay they lived in Phya Thai Palace. Mid-term examinations were held in a pavilion in the royal gardens, and according to a statement issued by Laurence B. Wallis, registrar of the University, from his office in the Graybar Building, New York City, the students showed themselves proficient in their studies.

Sailing up the Nile to Luxor, the students visited Tut-Ankh-Amen's tomb in the Valley of Kings. By special arrangement with the Egyptian Government, they were permitted to inspect the inner rooms of the tomb, where practically everything is made of gold. The students also visited the oldest Christian church in the world, located at Abu Sergah.

It has been announced that the 1929-1930 student body of Floating University will number one hundred and fifty, evenly divided between men and women. Many of the students will be candidates for the B.A., M.A. and B.W.A. degrees. The latter degree, Bachelor of World Affairs, is Floating University's own distinctive degree.

HOME COOKED MEALS ON ROAD
ASSURED BY PRESSURE COOKERModern "Gypsies" in Motors Collect Their Food as
They Go Along.

The gypsies are with us again! Not swarthy vagabonds ambling along in caravans but a host of happy pleasure seekers, tearing the country in modern automobiles. Like the gypsies, they are carefree, for they will pitch their tents for the night where fancy strikes them or will seek out one of the comfortable tourists' camps that have been provided for them.

In food, too, they will resemble the old-time nomads, collecting it as they go along, only in place of the blackened soup cauldron, today they take the family pressure cooker along with them and serve the family as well-cooked and well-balanced meals as if at home.

Every mother of small children will tell you that they often suffer while on trips because of the change of food and the tendency to eat irregular, insufficient meals and to fill up on a lot of sweet things all day. With the pressure cooker in the trunk the entire family gets hot, wholesome, freshly prepared food just as they would at home. Entire meals of meat, vegetables and desserts can be cooked in fifteen or twenty minutes. Chickens are easily bought in the country and corn and other vegetables and fruits in season.

Here, for example, is a menu that will be appreciated by all—fried chicken, brown gravy, squash, steamed apples, bread and butter, coffee for adults.

First, for the children. Mother can prepare the chicken for frying, dip in flour, season, and sear in the bottom of the cooker. In the meantime, some one else can pare and cut the squash and set it in the inset pan, without water, over the chicken. A third member of the party can core the apples and set them in a second inset pan. Fill the centers with one-half cup sugar and one-half teaspoon of cinnamon or nutmeg to eight apples. Place above the squash.

Put the cover on the cooker and cook at fifteen pounds pressure for twenty minutes. After the chicken is removed, make the gravy in the bottom of the cooker.

Greasing the outside of the cooker before plucking it on over the open flame will enable the smoke to be easily rubbed off.

(© National School of Pressure Cooking)

year, twenty different types of milkers were experimented with until electro-magnet force solved the problem of obtaining instantaneously uniform, balanced pulsation control. Indications are that the new magnetic milkers may have as far-reaching effects on the future of dairying as did the centrifugal cream separator.

has never before been thought possible. The true significance of this extraordinary milking device and the possibilities it holds for the man on the farm can be grasped only by studying the nature of the cow and the manner in which milk is made.

The food a cow eats is converted into blood, which in turn circulates through her udder, where milk-forming materials are deposited. The udder is full of a mass of glands much like a sponge, and a network of veins, arteries and nerves. The glands convert the milk-forming materials deposited in them by the blood into the milk. These glands are very delicate and sensitive, and if subjected to any unpleasant stimuli cannot secrete milk to the full extent of their ability. It is known, too, that the milk elaters connected to each of the four teats are able to hold only a certain amount of milk so that nearly all of the milk a cow produces is made during the milk operation.

When the milking is started, the nerves in the teats, which are highly sensitive, flash "messages" to the cow's milk-secreting organism to "release milk." If the sensation in the teat so that milk does not flow into the milk elaters.

The idea that a cow's production of milk can be materially increased or decreased simply through the act of milking is new to a great many people; yet those who are familiar with cows have long known this to be a fact. Every experienced dairyman knows that cows like to be milked the same way every day and that some people are better milkers than others and can get more milk from the same cows, and when a cow is milked by a strange milker, her production usually falls off for a milking or two. No two hand-milkers milk in the same way, nor can anyone milk a cow by hand from start to finish with absolute uniformity.

These are but a few of the problems faced and overcome by the designers of the magnetic milker. And they did it only by deliberately planning a machine that would work in complete harmony with a living animal of highly developed nervous temperament. It was determined that approximately 45 to 48 squeezes or pulsations a minute, maintained with unvarying regularity, are most conducive to good milking, and the magnetic milker was designed to do just that. It was also found that the action must be vigorous yet gentle and that a fast milker will get more milk than a slow or dribbling one. These, and many other considerations, have been provided for so that the new milker embodies everything that will get the most milk at the lowest cost and with the least trouble and attention on the part of the farm operator.

Announcement of the new magnetic milker comes exactly half a century after Dr. De Laval's invention of the first continuous discharge centrifugal cream separator, an invention which revolutionized dairying the world over, and which made dairying the world's largest and most essential industry.

Dr. De Laval made a practical milking machine as early as 1864, and from that date until the spring of this

year, twenty different types of milkers were experimented with until electro-magnet force solved the problem of obtaining instantaneously uniform, balanced pulsation control. Indications are that the new magnetic milkers may have as far-reaching effects on the future of dairying as did the centrifugal cream separator.

Young Man Tells Of Splendid Experience He Had With New Medicine

MR. MARION H. CAMPBELL

"My father, who lives in Peoria, wrote me, telling me of the wonderful results he received from Konjola, and urged me to give this new medicine a trial," said Mr. Marion H. Campbell, 1733 North Wells Street, Chicago. "I suffered from indigestion, weak kidneys, constipation, boils and swollen glands in my neck. I suffered from severe pains after eating, and had to get up many times at night due to bladder actions. My system was fairly saturated with poisons.

"But how quickly Konjola changed all this! Just as I was told it would do, it went right to the very source of my troubles, and in four weeks, I was a changed man in every way. I am in splendid health today; my whole inner system is working as it should, and I feel fine. No wonder Konjola is the most talked of medicine in America!"

Konjola is sold in Antioch, Illinois, at S. H. Reeves' Drug store and by all the best druggists throughout this entire section.—Advertisement.

KNOT HOLE NEWS

Vol. II Thursday, July 18, 1929 No. 28

Published in the interest of the people of Antioch and vicinity by H. R. Adams Lumber Co. H. R. Adams, Editor Rex Bonser, Mgr.

Vacation time is at hand and we wager that Antioch will look good when you get back. Like the fellow who hit his head with a hammer, because it felt so good when he quit.

According to some automobile manufacturers, the shortest distance between two points is a straight eight.

We wonder how it would seem without rapid transportation, to a c c o, moyle, g l a a, banks, time payments, Male-Hide Roofing, and Prohibition.

Mr. and Mrs. Jos. Horton and family are taking in the sights of northern Wisconsin this week.

Next Sunday evening, the menfolk of the Methodist church will have full charge of the services. Two weeks later, the ladies will hold sway. If there is any doubt in your mind as to who is the best, just attend these meetings.

Yes, there are three good reasons why you should give us your order for COAL now. 1, prices are lowest; 2, deliveries are cleaner; 3, quality is best.

All of you folks who enjoy a good time, be sure to attend the indoor carnival given by the third team of the Ladies' Auxiliary of the American Legion, July 26 at the Episcopal guild hall. They will have different kinds of games and prizes, hot dog sandwiches, and ice cream and cake. The fun begins at 8 p. m. So don't you

best smile and get into your best humor and go have a good time.

In Mexico, it isn't the one who gets the most votes who is elected; it's the one who gets the fewest bullets.

Beneath the spreading chestnut tree, The smith works like the Dece. For now he's selling gasoline, Hot dogs and orange juice.

The only real home is the owned home.

Now is a good time to get a few loads of crushed stone and fix up that drive way just like you have always wanted it.

SOCIETY and PERSONAL

Surprised On Birthday—A number of friends pleasantly surprised Mrs. H. F. Beebe Tuesday afternoon in honor of her birthday anniversary.

The afternoon was spent in playing five hundred. Mrs. William Keulman won first prize; Mrs. C. E. Shultz, second; Mrs. Dora Folbrink, third; and Mrs. Charles Pawles, consolation.

After a dainty luncheon was served, the ladies presented the guest of honor with a beautiful picture and wished her many more happy birthdays.

The W. F. Lasco, Channel Inke, entertained on Sunday, Messrs. and Mrs. Wm. Maher and George Brain and Johnnie Hubbard, all of Chicago.

Miss Alleen Member of Wilmet spent the week-end at the William Hubbard home.

Mr. Gutman of Chicago spent Sunday with his family at the Lasco cottage.

Mrs. Wallace Drom and daughter, Miss Grace, spent Monday at the Patrick home, Trevor.

Mr. and Mrs. Joe Horton and Mrs. Sophie Martin left Monday on a motor trip to Chetek, Wis., where they will visit relatives.

Mr. and Mrs. Fred Kinrade entertained on Sunday, Messrs. and Mrs. Harold Wells, and family, Warren Synder and son, Mundelein, and Paul Gay, Chicago; and Mrs. Lawrence Boyle and T. Webster and two daughters, Enche, David Hill, Marengo, and Keith Bolton, Bristol.

Mrs. Ada Pletchman, Waukegan, visited friends in Antioch Sunday and Monday.

Mrs. W. H. Osmond was acting hostess at a bridge and five hundred party, which was given at her home on Monday for the benefit of the sidewalk fund. Refreshments were served and there were thirty-six in attendance.

A carnival will be given by the third unit of the American Legion Auxiliary at the Episcopal Guild hall on July 26 at 8 p. m. There will be games, fortune telling, hot dog sandwiches, coffee, ice cream, and cake; and a guest prize will be given.

Mrs. Ralph James and son and C. Miller, Chicago, are spending their vacation in the J. C. James home.

Mr. and Mrs. L. O. Bright and daughter, Marjorie, motored to Milwaukee Tuesday.

Mrs. Frank Cox and Miss Elsie Cox and Mrs. L. A. Van Deusen and daughter, Miss Helen, Waukegan, called on friends in this city Wednesday evening.

Mr. and Mrs. Guy Corteville and children, spent the week-end at the home of the former's mother, St. Joseph, Michigan. The children remained for a longer visit.

Mr. and Mrs. Lyman Thain will move soon to Somers, Montana.

You Can't Beat 'Em!

An American, an Irishman and a Scotchman dined together at a fashionable hotel. Upon finishing the dinner the American displayed a \$5 bill, which he leisurely rolled up and used to light his cigarette. Not to be outdone, the Irishman took out a \$10 bill, which he rolled and used for lighting his pipe. And the Scotchman, nothing daunted, drew a checkbook from his pocket, wrote out a check for \$10,000, and used it for lighting his cigar.

Solitude

In our modern day, with the pace that our civilization tries to establish and to maintain, a great many people are made nervous by peace and solitude. Our speed of life is such that usually, when we seek repose, we make a mad dash for it. But solitude has a hand to still the pulse's leap, a voice to calm and reassure. Solitude is a room into which we can retire whenever we need a change from present company. It is a house of silence and reflection.—American Magazine.

Early Agriculture

The art of agriculture, the first step in civilization, was first practiced in the Near East—in Asia or Africa—according to archeological research. And the first grain growers are believed also to have been potters. These two arts spread into the Aegean area, to the plain of Hungary, to Switzerland and the Rhine country, and then to the Atlantic coast. It is now asserted that agriculture and the potter's art reached Britain at the dawn of the Neolithic age.

Honor in All Crafts

A good occupation is better than a golden griddle. Thrive happy they who have an occupation. Be not ashamed of your craft. There are tricks in all trades but ours.

Here's a chance for a saying—For thirty days—Lower prices in practically all departments. Many of our customers have already taken advantage of this sale—Gamble Stores, 5520 6th Ave., Kenosha.

VITAMINS SAVED IN PRESSURE COOKER

Several Vegetables Can Be Cooked Together Without Mixing Flavors.

The rush of 40 when gold was discovered in California is nothing compared to the housewives' hurry for vitamins for their families now that scientists have discovered that these precious nuggets of health are hidden away in different kinds of foods.

Vitamins A and B aren't so hard to find. There's plenty of A to be found in butter, milk, eggs, ice cream, and vitamin B is found in these foods, too, and also in navy beans,

carrots, turnips and onions after all the mineral salts and vitamins have been killed.

The two ways of preventing this wholesale slaughter of vitamins, especially vitamin C, are to serve one raw food a day and to cook all vegetables in a pressure cooker. This means that they are cooked without water, in their natural juices, none of which escape. Best of all, it has been scientifically proven that cooking at a high temperature for a short period of time is less harmful to the vitamins than slow cooking.

The cooking time for vegetables in a pressure cooker is remarkable. Carrots, for example, are tender and tasty in five minutes, at fifteen pounds pressure; cauliflower, in eight minutes; cabbage, onions and celery, ten minutes; white potatoes, sweet or Irish, require only fifteen minutes.

Not only do pressure-cooked vegetables retain their health-giving properties, but the housewife has to spend

less time in the kitchen, and the saving in fuel is considerable. Several vegetables can be cooked in the pressure cooker at one time and the flavors will not mix.

Moreover, the flavor in vegetables so cooked is so much improved that there will be no difficulty in persuading each member of the family to eat his full quota no matter how strong his old prejudice may have been against them.

LONG COOKING KILLS VITAMIN "C"

raw cabbage, turnips and liver. But vitamin C is the elusive one, and one of the most important, too, because it is essential to good health, and especially prevents scurvy which is apt to be prevalent among children not getting a balanced diet.

There are plenty of fruits and vegetables which abound in this necessary vitamin, but it has been found to be the one most easily destroyed by cooking. It is useless to give your family plenty of spinach, cabbage,

less time in the kitchen, and the saving in fuel is considerable. Several vegetables can be cooked in the pressure cooker at one time and the flavors will not mix.

Moreover, the flavor in vegetables so cooked is so much improved that there will be no difficulty in persuading each member of the family to eat his full quota no matter how strong his old prejudice may have been against them.

Electro Magnet Now Used to Milk Cows

In Albany, N. Y., where he was born more than 130 years ago, there was unveiled the other day a statue of Joseph Henry, discoverer of the electro magnet. The statue depicts Professor Henry examining an electro magnet, the principles and workings of which were discovered by him in a room of the Albany Academy, in front of which the statue stands.

Many of modern industry's most important tasks are possible of performance only because of Henry's discovery of the electro magnet force.

The most recent application of the electro magnet force is reported by the Delaval Engineering Laboratories, which have harnessed the electro magnet force to achieve uniform milking of cows—a goal sought by scientists for over 20 years. This is accomplished by means of an odder pulsator and controlled from a pulso pump by magnetic force. This simple and inexpensive method insures perfect milking with the least trouble and attention on the part of the operator.

John Henry shares with Morse the honor of inventing the telegraph.

As Extra Eyelid

Birds have an extra eyelid, which can be drawn over the eyeball to protect it from the strong sun while the proper eyelid remains open, enabling them to see.

How to Be Well Dressed

To be well dressed, a woman must know the new, and then, with greatest care, select from that what is best and most suitable for her to wear.—Farm and Fireside.

Fruits of Repentance

Our repentance is not so much regret for the ill we have done as fear of the ill that may happen to us in consequence.—La Rochefoucauld.

World's Biggest Business

The biggest business in the world is that of the housewife, citing as proof the fact that the housewife is purchasing agent for 85 per cent of the goods sold.

NON-ADVERTISERS PAY THE BILL

Whose advertising bills do you pay?

The merchant who does not advertise pays the advertising bills for the one who does.

Every merchant in business pays for advertising, whether he uses it or not. If a competitor's advertising takes any business away from him, the profit he would have made on the lost sale is what his competitor's advertising costs him.

You have perhaps wondered how some stores can afford to spend such enormous sums for advertising. That is easy to fathom. Their competitors, who don't advertise, and whose business they take, pay for their advertising.

Say the Jones family is a customer of yours. They have \$60 they intend to spend with you. They read the advertising of your competitor and are induced to spend their \$60 with him instead of spending it with you. The store makes 20 per cent or \$12 on the sale. It deducts, we will say, the \$1 advertising cost and has \$11 profit left. The advertising has cost nothing. It got back its cost and had \$11 profit it would not have had except for the advertising.

Who paid for this advertising?

Did the advertiser pay? No. He got back the cost and profit besides.

Did the purchaser pay? No. He paid only the regular price.

Then who did pay?

The merchant that did not advertise paid for his competitor's advertising. He not only paid for the other fellow's advertising, but he paid out of his cash drawer the profit his competitor made on the sale. The merchant that doesn't advertise pays the advertising bill for the one that does. He pays in loss of sales and loss of profits

THOSE FOOLISH MAIL-ORDER MEN

Two of Chicago's big mail-order houses put approximately \$2,000.00 in advertising in Antioch last week. During the same period merchants here used less than \$20 worth of space in the local newspaper. The new wrinkle is that these merchant princes will now pay all transportation charges on merchandise right to your door.

As to quality of merchandise, prompt service, and many times, prices, the local dealer has the mail-order houses beat to death, besides there is the matter of civic loyalty and keeping the dollars at home. Therefore, Mr. Merchant, if your merchandise is right, your offer reasonable and you invite the business you can get it through advertising, just as the mail-order houses get it. The old system of waiting for business "because they all know me and my store" is the bunk. There is not a man, woman or child in the United States that does not know the two leading Chicago mail-order firms, yet the catalogue houses continue to advertise. The foolish mail-order man—plain stupid, just like a fox.

GAS TAX MENACE OPPOSED

The year 1929 will go down in history as a period wherein legislators hoisted the gasoline tax a point where the press, thinking public officials, the oil industry and the people combined to fight this newest of tax problems. Last year 27 states had taxes of three cents a gallon or less. Now 20 states impose levies of four cents or more, one state has a tax of six cents, and legislators in still other states are casting longing eyes at further increases as a means of providing public funds with the

least effort. In some states it is said that high gas taxes have actually deprived the states of revenue. In Pennsylvania, for example, which has a four-cent tax, one-third of motor owners live near state borders and make a practise of driving to localities where the tax is lower. Estimates place the loss to Pennsylvania at \$1,500,000 yearly.

No one objects to a fair gasoline tax when all the revenue is employed for road building and maintenance. What is objected to is a tax out of proportion to the cost of gasoline or one which is used for purposes other than road work.

BUILDING HIGHWAYS FOR THE FUTURE

So rapid has been the development of automobile travel in this country that many highways built but a comparatively few years ago are outmoded and dangerous.

As a result progressive sections are building for the future. Low cost pavements are being constructed, wide enough for several cars abreast, with banked turns and mathematical grades.

There is no place with our modern 50-mile-an-hour cars for 20-mile-an-hour highways. The roads of today must be built with an eye on the years to come.

SUPPLEMENT YOUR HUNCHES

No ordinary investor, wandering in the maze of modern finance, can choose safely from the thousands of securities offered the public. "Tipster" sheets and friendly advice are easily found, but dependence upon such information alone is generally hazardous.

A great number of separate elements enter into the stability of a stock or bond issue. Marketing conditions govern whatever the company sells, the relation between supply and demand, price levels, competition, financial reserves and assets, location, the quality and integrity of the management—any one of these can mean the difference between a successful industry and a failure.

For one person who turns a few dollars into a fortune in an unknown, highly speculative venture, a thousand lose. The blunders of naive promoters, handsome brochures and unscrupulous advice, generally pay the way to financial ruin.

Investment or speculation should be restricted to securities in industries that have been proven sound and that have promise of future progress. Reputable investment bankers and brokerage houses whose standard is established through membership in one or more of the great major exchanges, are available to the large or small investor who should supplement his hunches with their advice. Purchase of a listed security, in itself assures a reasonable degree of safety as it must uphold certain standards to maintain its listing.

WILMOT RESIDENT SERIOUSLY INJURED IN ACCIDENT SAT.

Mrs. Harm Undergoes An Operation — M. E. Aid Society Meets

William Hartman was seriously injured Saturday evening, when an automobile in which he was riding was overturned at Trevor on the railroad tracks. Two other men with him escaped injury, but the car was badly deminished.

Mrs. Charles Harm underwent an operation for gall bladder trouble recently. Janet Husselman and Alva Vandersee are staying with her.

The M. E. Aid society is to meet this Thursday at the M. E. church.

Mr. and Mrs. S. Scholds and children are on a week's motor trip to Necedah, Wisconsin.

Mr. and Mrs. Wilbur Lewis and children, Milwaukee, and Mrs. Florence Lewis of Silver Lake were guests Sunday of Mr. and Mrs. Frank Burroughs.

Grandma Ganz accompanied John Sutcliffe to Berwyn Monday, where she will be a guest of her daughter, Mrs. Herman Richards.

Mr. and Mrs. E. P. Sholliff and daughters, Hazel and Florence, and Miss Clementine Bigelow of Rockton and Mrs. Sarah Hunter and daughter, Beatrice Duffy, from Antioch were dinner guests Sunday of Mr. and Mrs. R. C. Sholliff.

M. M. Schurr is attending the State Teachers' convention at Madison this week. Mrs. Schurr and son are visiting with her parents, Mr. and Mrs. Anderson, Milwaukee.

George Denn spent the week at Wheatland with Mr. and Mrs. Frank Lake. Mrs. Dean is staying with Mr. and Mrs. Bert Dean at Silverlake.

Mrs. Tourcheck of St. Louis, is visiting her sister, Mrs. J. Husselman, Jr.

Mrs. Honora McGuire and daughter, Nora, of Chicago spent the past week at the McGuire cottage in Wilmot. Catherine McGuire has been

CHESTER

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

I don't know what Chester's last name is. I could have found out, but I was not curious enough to inquire. He got on the train at one of the Canadian summer places with an impetuosity and a furor which made us all aware of his coming and he remained with us until we reached Minneapolis. He was a well-dressed and well-set-up youngster of

ton, I judge, and if he had had any manners or had been taught any sort of self-control he would have been a very likable boy. He was apparently the only child of a prosperous-looking gentleman of sixty and a handsome woman considerably younger. I inferred that there were no other children in the family from the completeness with which he got what he wanted, disobeyed all verbal orders given to him, and disregarded the comfort and the rights of every one on the train.

Father and mother occupied a drawing room at the end of one of the cars but Chester seemed to feel that the whole train was his personal property. While his parents were quietly engaged in a friendly game of bridge with some acquaintances which they had picked up on the way, Chester roamed at large like a wild Texas steer turned loose in a public street. He went tearing up and down the aisles shouting and slamming the doors and tripping over feet and suitcases and paying no attention to anyone. He was quite at home wherever he went.

In the observation car where a number of people were trying to write or to read quietly, Chester moved constantly from one place to another, trying this chair and then that, looking at one magazine and then tossing it aside for another, and all the time he was making a great racket.

"Don't do that, Chester," his mother would occasionally say, but her warning seemed to act more as an incentive to further disturbance than as a deterrent. Chester had not yet learned the sound of his mother's voice. He went on as if nothing had been said to him.

At the table Chester snuffed a good deal of air as if the process were wholly to satisfy his appetite. Generally he did not like what was set before him and made derogatory comments on the menu. Father and mother took little notice of this attitude; they were evidently quite used to it. They were evidently quite shocked, and were neither surprised or shocked.

Chester is the illustration of one sort of modern training of the young. He is being allowed to express his own personality, to develop without restraint. If he learns good manners, or modesty, or self-control, or unselfishness, or regard for other people's comfort or personal rights he will pick these things up himself through experience and hard knocks, and possibly through watching some one else whose example he thinks well of.

If I may judge from the way he acted between Seattle and Minneapolis the parental, restraining hand has not yet been laid on him.

The Best We Can Do

Old Eagle Eye Says—

Antioch is cityfied. There's no doubt about it. Almost every day there are calls for "The Antioch Daily News." Yesterday a woman asked "Where is the nearest mail box? I want to post a letter." A stop-and-go traffic signal is being advocated for the Main and Lake street intersection. In a few years Antioch is going to have many of the things a regular city has—traffic lights, city mail delivery, perhaps a daily newspaper.

Where do they all come from? Where do they go? An observer, pondering over the enormous amount of traffic through Antioch, stood, watch in hand, late Saturday afternoon counting the seemingly endless procession of automobiles. Five minutes, 156 cars! Ten minutes, 230 cars! Twenty minutes, 541 cars! An average of about a car every two seconds at that hour on Saturday. Wonder what the south-bound traffic mounts up to on Sunday afternoon? What would count of traffic on Highway 21 through Antioch show in a period of 24 hours? Or a week?

The Antioch News directed 67 vacationists last week. It is fair to assume that all the principal business houses in Antioch gave information to a proportionate number. What was told the tourists? Are all business houses supplied with folders of the Chain O' Lakes? It seems that resorts and hotels should see that merchants are supplied with complete information as to accommodations offered. It would be merely good business and costs nothing. Business men are always glad to tell strangers about your place.

Is yours a "House of Courteous Service?" Ever watch a group of customers being waited upon by another group behind the counter? It's interesting, and is time well spent for those who learn by observation. The "old crab" hatters himself into the belief that he is a connoisseur and methodical business person, but he is only kidding himself, while the pleasant salesman gets a bigger kick out of life and more returns from his business. Courtesy pays in every way.

At last! "Quality" street is being improved. Public sentiment again has its way, as always. Every year about vehicle tax, paying time street improvement is talked frooly, almost excessively, and Quality street, or Pig-tail avenue, is always the goat. Now that the village board has surfaced the street with a coating of nice new crushed stone, it seems the thoroughfare is deserving of a new and better name.

Invaluable Humor

Humor is the root of tolerance, the prop of patience; it keeps the heart of man sweet, his soul modest.—Eden Phillips.

Tea Kept in Barrels

When tea was first used in England it was infused in bulk and kept in barrels to be drawn like beer. It was then warmed for use.

ANTIOCH 4-H CLUB HAS DEMONSTRATION

Fitting sheep for the show ring was the subject of the demonstration which was put on at the Antioch 4-H club meeting Friday evening at the high school. C. L. Kuth, instructor of vocational agriculture and a 4-H club leader, was the one who conducted this demonstration before an audience of about forty-three members.

Following the demonstration, ice cream was served to the young folks in the high school cafeteria. An all-night hike along Fox river is planned for August.

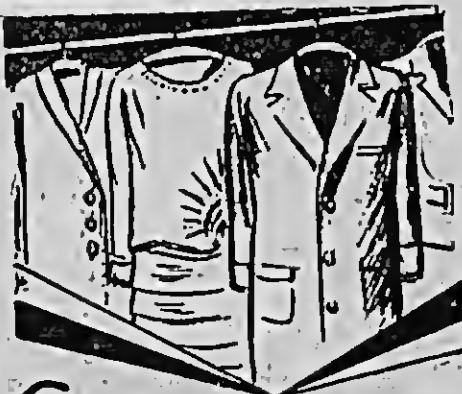

Here's something you've been waiting for—Winchester shells at the usual Gamble savings. 12-gauge repeater 98c per box—Itanzer, 75c per box, in case lots.

GUS DE SALVO AGAIN HEADLINES BOXING CARD AT PALACE

Conqueror of Hughes to Meet "Chicago Flash" Friday Night

A new amateur sensation has appeared on the flat horizon. He is Gus De Salvo, Milwaukee boy, who is billed to trade punches with one of the best fighters in the world, Frankie Hughes, in the windup event at the Palace arena Friday night. De Salvo's sensational defeat of Frankie Hughes, who was fighting his last amateur bout last Friday night, has set the Milwaukee battler solid with Palace fans. The windup bout, which is sure to be a hammer, is supported by an all-star card of six bouts, arranged by Promoter Macek, and which promises to be one of the best amateur shows of the season.

Zahale and Schneider on Card
"Red" Schneider, Waukegan, and Loy Mullens, Deerfield, are slated to begin the hostilities in the opener. Rudy Peterson, Evanston slugger, will do battle with Joe Stowe, Kenosha, in the second bout. Johnny Olsen, Evanston, and Johnny Hughes, Kenosha, ought to put up a thriller in the third scrap.

Other bouts offered for the edification of fans are Joe Pitts vs. Ernie Kratochvil, 130 lbs., Bobby Juhrend, Deerfield, vs. Billy Gladstone, Chicago, and Charlie Zahale vs. Jimmy Biscardie, who appear in the semi-windup.

Hughes Loses Last Amateur Bout

Frankie Hughes, fighting his last amateur battle, lost last Friday night to Gus De Salvo, in a thrilling four-round argument that had Palace fans on their feet most of the way. Hughes has won practically all of his fights at the Palace and to see a stranger treat Frankie rough was a new thrill for the bugs. De Salvo met Hughes at his own game, fighting the Kenosha lad on even terms for three rounds. Hughes' rushes did not get him anything but retaliation from the flashing left of De Salvo. The Milwaukee mauler had Hughes all over the ring in the fourth and earned the verdict without a doubt.

Garbell Wins

Harry Garbell won decisively over Jim Biscardie in three rounds.

George Taylor lost to Tommy Wilkins in three rounds. The colored lads putting up a good exhibition of boxing. It was said Taylor was suffering from an injured hand.

Carl Ogren earned the decision over Young Taylor in the semi-windup.

Eddie Garlow was declared the winner over Ralph Brown. In three rounds. Brown stopped some solid blows but did not seem to be hurt.

Sammy Valos lost to Johnny Hughes in three rounds. Valos seemed a trifle out-classed but was game and stuck to the finish.

Howard Craft lost a close decision to Billy Gladstone in three rounds. It was a real scrap all the way.

There will be a home bakery sale on Saturday, July 20, at the Antioch Sales and Service garage. It is sponsored by the Altar and Rosary society.

King George Enjoys Sunshine

For the first time since he became ill nearly four months ago, King George was able to go out in the grounds of Crilewell house, Epsom, England, where, accompanied by the queen, he spent an hour in the beautiful sunshine.

ATTRACTIONS AT STATE FAIR WILL SURPASS ALL FORMER SHOWS

State Administration Is Determined To Improve Exhibition

Springfield, July 18—Preparations for the Illinois State Fair, August 17 to 24, are moving forward in a manner which indicates that the 1929 exposition will surpass all previous shows in point of attendance, excellence of exhibits and in general attractions. Scores of workmen are busy on the grounds making repairs to buildings and putting the entire plant in the best shape in many years. Throughout the grounds a multiplicity of activities show results in added comforts and conveniences.

Fair officials have just announced that the automobile dealers of Illinois are back again as exhibitors after a number of years of absence. Practically every well known make of automobile will be on exhibit this year with several models being shown for each make.

The state fair premium list went into the mail this week. Former exhibitors, farm bureaus and other interested persons will be supplied as rapidly as the books can be mailed. The premium book lists a number of new departments which will be of general interest.

The schedule of special days is announced as follows:

Saturday, August 17—Automobile Race Day.
Sunday, August 18—Sacred Concert.
Monday, August 19—Children's Day.
Tuesday, August 20—Springfield Day.
Wednesday, August 21—Veterans' Day.
Thursday, August 22—Governor's Day.
Saturday, August 24—Automobile Race Day.

Premium offerings, in the departments that advance quality production in live stock, field, orchard and garden products, art, needlework, culinary skill, and all the arts and crafts in general, show a wider range of opportunity for exhibitors this year. The educational features, such

as the premium offerings for the prize work of students, the 4-H department, boys' school, girls' school and the vocational agricultural class exhibit section, all come in for particular attention in the revised premium offerings, reflecting the state administration's determination to improve the fair along the lines for which it is intended—for the advancement of agricultural, industrial and educational development of the state of Illinois.
